Faculty

Children's Hospital School Health Team

Overview and Target Audience

Optimizing student health outcomes, improving school performance, boosting attendance, and promoting the overall well-being of school-aged children with medical complexities are essential student priorities. This initiative is designed to equip School Nurses and Childcare Health Consultants with the knowledge and skills necessary to effectively support children with special healthcare needs. Targeted education related to the top nine health conditions seen in school settings and take-home training kits will empower these healthcare professionals to deliver high-quality care and train/delegate to Unlicensed Assistive Personnel effectively to ensure that children with medical complexities can thrive in their educational environments.

Learning Outcomes

Upon completion of the activity, learners will describe and demonstrate evidence-based assessment, intervention, and emergency response strategies for managing common pediatric health conditions encountered in school and childcare settings, including the application of safe and competent clinical skills such as emergency response, medication administration, and delegated care during simulated skills stations.

Nursing Continuing Professional Development Credit

Registration, sign-in, attendance, and submission of the evaluation, are required for successful completion and receipt of the NCPD credit certificate of attendance. Claim only those hours you attend.

Children's Hospital Colorado is approved with distinction as a provider of nursing continuing professional development by Colorado Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. This educational offering for **7** nursing contact hours is provided by Children's Hospital Colorado.
Disclosures: Planners and faculty in control of content have no relevant financial relationships with ineligible companies.
